

### Life in my bubble

Our lives have changed so much since covid 19 hit. We can't see friends or family that don't live in the same house as it sucks. We watch Netflix and Disney plus a bit too much, We like to sit at the table and spend some time together, We play games and have fun, but we can get angry fast so don't do something annoying or you will get told off. But we all know we love each other so we do our best to stay calm but all we have to do is have fun and spend time together like a family, but no family is perfect but you don't need to be perfect now no one is perfect but my family's awesome.
